

Career Planning for an Uncertain Future

When the only thing you can be certain of is more uncertainty in the current economic state, now is the time to reassess your career goals that maximizes your flexibility, adaptability, and alternative options. Many people are tempted to succumb to negativity, experience anxiety and lose sight of their career goals. One of the most important pieces of advice a person can do is to stay calm and remain focused. This online course will help individuals learn ways to continue their career planning and discover new opportunities during uncertain times.

Delivery Method: Online Course
Course Length: 90 minutes

**Includes group activities, polls and Q&A sessions!*

During this course, participants will:

- Define career planning and conduct a personal SWOT Analysis
- Understand the benefits of staying current with your organization's strategic goals
- Discover and apply the Eight-Step Career Planning Approach.
